

ADVISORY

NOTICE OF ADOPTION RULE 66 - ORGANIC SOLVENTS (AMENDMENT)

The Air Pollution Control Board adopted amendments to Rule 66 which became effective July 9, 1991. Rule 66 is an existing rule regulating the use of organic solvents. These amendments to the rule were necessary to correct deficiencies identified by the Environmental Protection Agency. Accordingly, the amendments will accomplish the following:

- Delete sections which address operations now covered by specific District rules.
- Specify initial boiling point instead of vapor pressure in the definition of "organic solvents".
- Specify test methods that will be used to determine compliance with the rule.
- Add recordkeeping requirements.

If you would like a copy of the rule, call Juanita Ogata at (619) 694-3307. If you have any questions concerning this advisory, contact the District's Enforcement Division at (619) 694-3340.
